

#StrongAndStable?

The captain of the Titanic insisted on going full steam ahead as it hit the iceberg, despite warnings of ice and potential problems ahead.

And the latest research evidence on why the strong-and-stable vessel sank so quickly? **Internal problems which the owners lied about and kept a secret from everyone** on board.

In the Titanic's case, a fire in the coal bunkers which 12 men could not control. It burnt for up to three weeks, fatally weakening the ship's structure.

Here and now under Tory Government...

How is Tory Britain sinking? Take your pick of:

The one thing you can be sure of in Tory Britain:

As soon as the iceberg hits, the **first-class passengers will get all the lifeboats, and the poor will be locked in.**
